Railroad Strike Crisis Is Placed Before Truman

Administration Officials
Confer At White House
On Possible New
Moves

PRESIDENT CAN SEIZE RAILROADS

By PHILLIPS J. PECK
(U. S. Staff Correspondent)
WASHINGTON, May 5.—
A full report on the railroad
strike crisis will be pre-
sented today to the White
House where administration
officials are planning new
moves to avert a scheduled
May 11 walkout.

Frank Douglass, chairman of the
National Mediation Board, is sched-
uled to report to Dr. John R. Steel-
man, assistant to the President,
who conducted the top-level peace
talks in a similar 1946 rail dis-
pute.

President Truman then will get
an up-to-the-minute analysis on
the controversy but no action is
expected immediately.

Douglass hurried back to Wash-
ington from Chicago where a series
of mediation conferences with the
carriers and three rail unions
failed to end the threatened strike
of 150,000 engineers, firemen and
switchmen.

Possible Moves
Government officials said a
number of possible new moves are
being studied. They include:

Federal seizure of the railroads;
recommendations to Congress for
emergency legislation; an attempt
to get a postponement of the strike
deadline; summoning the disput-
ants to Washington for further ne-
gotiations.

Francis A. Silver, general coun-
sel of the Office of Defense Trans-
portation, said the government

Six does, travelling in single file
gave the residents of Shenango
townships near the city line a thrill
Tuesday afternoon. The does were
first seen near the Army. From
there they went down through
Cascadia Park, over the fields back
of Cascade street and through the
Weinberger evergreen nursery.
Traffic on 422 halted to let the
animals pass with safety.

Classes of the New Castle public
schools dismissed at 2:30 this
afternoon to permit a meeting of

ania State Teachers' Association in
the senior high school.

One of the strangest sights wit-
nessed in a long time was reported
to Pa News on Tuesday. Operator
of the Butler avenue bus bringing
the vehicle toward town observed
a squirrel slowing wending its way
across the avenue which was not
unusual, but in the mouth of the
squirrel was a strange burden and
upon closer observation it was
found to be another squirrel which
had evidently been injured. The
squirrel which was being carried
had one paw around the neck of
the rescuer to aid in holding on.

I would like to report that about
8:10 a. m. Tuesday morning, the
children and I saw four fawns
standing above our house looking
down on the place. We live on the
Savannah road and the fawns were
standing in Weinschenks field.

A query received by Pa News,

Senior High Graduating Class Has 541 Members

One of the largest classes in the history of the New Castle senior high school will be graduated on June 1, Superintendent Frank L. Burton said today.

The total of graduates will be 541, with the possibilities there may be a change of two or three either way.

The June classes in recent years have been smaller due to the fact that mid-year graduation was held. This year the class is the only one to graduate in 1948.

U.S. In Favor Of Retention Of U.N. Veto Power

(BULLETIN)
WASHINGTON, May 5.—(INS)—
Secretary of State Marshall told
congress today that the United
States favors retention of the veto
in the United Nations to prevent
the use of American troops with-
out America's consent.

Marshall advised the house for-
eign affairs committee that while
the United States favors an ame-
lioration of the big powers' veto
in certain circumstances, the gov-
ernment does not favor its elimi-
nation.

He said:
"We think the veto should
remain for our own protection in
order not to have the manpower
and the material resources of the
United States committed by a two
thirds' vote to aggressive action."

Ellwood City, was fatally injured
at 7:10 p. m. Tuesday, when struck

City, on Sims street, Ellwood City.
The boy died in the Ellwood City

According to the investigation
conducted by Coroner Charles E.
Allen, and Lt. Straw and officers

boy was evidently crossing the
street at the intersection of Allen-
by and Sims streets, when he was
struck.

Miss Rape stated that she had
just crossed the viaduct leading
from the Tube Mill to Ewing Park,
where the street dips down towards
Allenby street, when the little fel-

Proposals From Congress On U.N. Meet Opposition

Secretary Marshall Stoutly
Opposes Idea For New
"Democratic Pow-
ers" Union

TESTIFIES BEFORE HOUSE COMMITTEE

By RAYMOND WILCOVE
(U. S. Staff Correspondent)

WASHINGTON, May 5.—
Secretary of State Marshall
today stoutly opposed con-
gressional proposals to cre-
ate a new United Nations of
"democratic powers" as
likely to "weaken us and ex-
pose us to even greater dan-
gers" from the Soviet in-
fluence.

Marshall testified before the
House Foreign Affairs Committee
on legislation which would com-
mit the United States to eliminate
the veto in the world organization
and, if Russia fails to go along,
to create a body of Anti-Soviet pow-
ers.

Would Destroy U. N.

Marshall said:
"The suggestion that a revised
United Nations, or some form of
world government should be
achieved, if necessary, without
those nations which would be un-
willing to join, deserves special at-
tention."

"Such a procedure would prob-
ably destroy the present United
Nations organization. The result
would be a dispersal of the com-
munity of nations, followed by the
formation of rival military al-
liances and isolated groups of
states."

"This result would weaken us

Taft Opposes Move To Link U.M.T. With Draft in Congress

WASHINGTON, May 5.—(INS)—
Sen. Taft (R) Ohio lined up with
House GOP leaders today in op-
posing the strongly-backed senate
plan to link one year of military
training with a regular draft.

Taft called his Republican policy
committee together today to con-
sider defense legislation and other
matters hanging fire during his
Ohio presidential campaign swing.

He declined to comment on the
new house proposal to substitute a
bonus recruitment plan for the
draft but he fired this shot at the
senate bill to add one year of train-
ing for 18-year-olds to the 19-
through-25 draft program.

"I'm opposed to universal mili-
tary training in any form. This is
just an attempt to get a foot in
the door."

The Jews claimed that the at-
tacking force which pounded the
Kfar Etzion settlements with ar-
tillery fire, included members of
the Trans-Jordan Arab Legion.

Seek To Restore Peace

A United Nations Special Truce
Commission went to Jericho today
to confer with Arab League rep-

Jerusalem.

At Jericho, 15 miles north and
east of Jerusalem, the commission
is to meet with the Arab League
officials headed by Abdul Rahman
Assan Pasha, secretary general.

The commission was accom-
panied by Col. Rosher Lund who

Defeats Stassen In Contest For Ohio Delegates

Nearly Complete Unofficial
Returns Show Stassen
Now Certain Of Seven

TAFT TO HAVE AT LEAST 43 DELEGATES

By HAROLD LISK
(U. S. Staff Correspondent)

COLUMBUS, O., May 5.—
Nearly complete unofficial
returns in Tuesday's Ohio
primary today gave Sen.
Robert A. Taft 13 of the 23
Republican national conven-
tion delegates contested by
Harold E. Stassen.

The former Minnesota gov-
ernor was assured of seven
Ohio delegates. Three other
contests still were doubtful
this morning, although Stas-
sen held slight leads in two
of them.

In a tradition-breaking move,
the Minnesota placed 23 entries
in the Republican presidential pri-
mary in Taft's home state. Thirty
of the 53 GOP delegates went to
Taft without a contest.

Taft Gets At Least 43

Thus the senate majority leader
is assured of 43 and possibly more
of his own state's 53 delegates to
next month's Philadelphia conven-
tion.

The three races still doubtful
were in the 14th (Akron) congres-
sional district, one in the ninth
(Toledo) congressional district, and
one at-large.

Stassen entered one "single-shot"
candidate against a full Taft slate
of nine in the state-wide race.
However, the Stassen entry was
more than 20,000 votes behind the
lowest of the nine Taft men on the
basis of reports from 6,295 of the
state's 9,285 precincts.

It was uncertain whether Car-
rington T. Marshall, the Stassen
man, could catch the Taft dele-
gates. However, with more than
3,000 precincts still missing, the
race was listed as "still doubtful".

Where Stassen Got Delegates

With only two of 472 precincts
missing in the Toledo district,
Stassen was assured of one district
delegate while his other candidate
held a 16,816 to 10,733 lead over
the high Taft man.

In the Akron district, 21 of 351
precincts still were unreported.
Stassen was assured of one dele-

'Neutral' Mayor For Jerusalem Is U.N. Proposal

By PIERRE J. HUSS
(U. N. Staff Correspondent)

LAKE SUCCESS, N. Y., May 5.—The United Nations Trusteeship Council today accepted a British offer to appoint a "neutral" mayor to administer Jerusalem.

The larger question—that of an emergency regime for all of Palestine—will be taken up today by a special newly-formed subcommittee of the U. N.'s political committee. The trusteeship group will forward its recommendation to the General Assembly today, where it is expected to be approved.

Under the plan, the Palestine high commissioner, Lieut. Gen. Sir Alan G. Cunningham, will appoint a mayor acceptable to both Arabs and Jews. The mayor will take over when the British give up their mandate on May 15.

He will operate under Palestine law, rather than any U. N. regulations, and his only function will be the maintenance of public services.

Other than the appointment of the mayor, the council made no recommendations for the enforcement of law and order in the Holy City.

The vote for the recommendation of a British-selected mayor was 3-0 with Russia and France abstaining.

gate and his second entry was leading. However, the Taft high man was behind only 323 votes.

In addition to his single delegates in the Akron and Toledo districts, Stassen was assured of two delegates each from the third (Dayton) district and one from the 19th (Youngstown) district. One of his delegates also had a comfortable lead in the 20th (Cleveland) district.

Taft won two delegates each in the 6th (Portsmouth), the 7th (Springfield), the 16th (Canton), the 18th (Steubenville), the 21st (Cleveland), and the 22nd (suburban Cleveland) districts. He also won one delegate in the 20th (Cleveland) district.

Ohio Democrats elected a delegate slate pledged in name to W. A. Julian of Cincinnati, but actually expected to support President Truman for re-nomination.

Every man was present in full uniform, and the men presented a snappy appearance and showed the benefit of splendid training. In fact the inspecting officers complimented the non-commissioned officers, virtually all of whom are veterans of the late war, on the way they handled the men, and the training shown.

There were a number of friends of the men present for the inspection.

Tonight's inspection of Service Battery will conclude the inspection of the 229th Battalion, the units at DuBois, Punxsutawney, and Grove City, having already been inspected by the inspecting officers.

The rating the 229th receives from the inspection will be announced later, Col. Mitchell states.

New Effort To End Strikes in Packing Plants

CHICAGO, May 5.—(INS)—Negotiations seeking to end the nationwide CIO meat packing strike, now in its eighth week, turned to Washington today as the walkout spread to independent slaughter plants.

Representatives of the big four packers, Swift, Armour, Cudahy and Wilson, and the striking CIO United Packinghouse Workers are meeting with Cyrus S. Ching, director of the U. S. Conciliation and Mediation Service in Washington in an effort to reach a settlement.

In Chicago before leaving for Washington, union spokesmen announced the strike would be spread to independent packing plants beginning next Sunday with a walkout at the Kingan plant in Indianapolis.

The strike thus far has been directed mainly at the big four packers, and meat production has been near normal throughout the country as independent plants stepped up their slaughtering facilities.

Should the strike spread, however, the nation will face a possible meat famine.

could seize the railroads under a 1916 law which empowers the President "in time of war" to take possession of "any system or systems of transportation." World War II is not legally ended.

On the legislative front, Rep. Hartley (R-N.J.) already has discussed amending the Taft-Hartley law to bring the railroads under that Statute.

Up To President Now
CHICAGO, May 5.—(INS)—Final efforts to head off the threatened nationwide railroad strike, scheduled for May 11, rested with President Truman today as last ditch negotiations collapsed in Chicago.

Frank Douglass, chairman of the National Railway Mediation Board seeking to avert the strike in Chicago, announced after the last conference yesterday that every means of halting the impending walkout under the Railway Labor Act has been exhausted.

Douglass declared that he and board member Francis A. O'Neill would lay the matter before President Truman in Washington today. They first are expected to meet with John R. Steelman, presidential assistant.

The President still has war time powers to seize the railroads in the event of a strike. If the strike goes on as scheduled, it would cripple transportation on 132 first class railroads over a net work of 225,000 miles throughout the nation.

FRANKFURT, May 5.—(INS)—The number of German workers on strike against food shortages in the American and British zones mounted to 100,000 today, but officials predicted a back-to-work movement in the U. S. occupation area.

Military government spokesmen said workers in Stuttgart and Mannheim probably will get back on the job today. They added that the situation in Quertemberg and Baden was "good."

No demonstrations in either the British or American zones were reported.

LADIES OF LIONS' MUSICAL-TEA

Ladies of the Lions were entertained for their May meeting Tuesday evening in the home of Mrs. Jay L. Reed, 1207 North Mercer street, in the form of a delightful musical-tea.

Mrs. Charles L. Pile, who presided over a short business session, turned the meeting over to Mrs. Joseph B. Leyde, program chairman, who in turn presented Mrs. S. Glenn McCracken and Mrs. Reed in a group of duo piano numbers. Their selections were "Spanish Dance", "The Swan", and "Minuet".

Next, music of Broadway, consisting of solo, duet, quartet, and piano numbers from musical comedies and light operas was very much enjoyed.

Singing in the quartet were: Mrs. Harry W. Helmick, soprano; Mrs. L. Paul Friend, contralto; William McCombs, tenor; Delbert Fletcher, baritone, and Mrs. Jacob Jordan, accompanist.

They sang, "In the Spell of the Night", "Will You Remember?", "Without a Song", "My Hero", and from "Oklahoma", the overture and "O What a Beautiful Mornin'". "Surround with the Fringe on Top", "People Will Say We're in Love", and "Oklahoma".

To conclude the program, Mrs. McCracken and Mrs. Reed played the "Valse" from the Arensky suite. Tea was served from a beautifully appointed table with Mrs. Pile pouring. On the social committee with the hostess were: Mrs. N. Jaquish, Mrs. C. R. Youngquist, Mrs. A. D. Shiget, Mrs. George Wagner, Mrs. George F. Winter, Jr., Mrs. Jennings Humphrey, and Mrs. U. A. Leivo.

MILLER-CRAY MORNING WEDDING

Vases of white snapdragons, palms and ferns formed a beautiful setting at the altar of St. Mary's church for the wedding of Miss Muriel Regina Miller, daughter of Mr. and Mrs. Charles D. Miller, of 314 South Crawford avenue, and Francis A. Cray, son of Mr. and Mrs. Frank A. Cray, of 919 Winslow avenue, on May 1.

Solemnized with nuptial mass at 10 o'clock in the morning, the exchange of vows took place at a single ring ceremony with Rev. Francis M. McCarter officiating.

Given in marriage by her father, the bride wore a wedding gown of white slipper satin fashioned with a sweetheart neckline, a fitted bodice and full skirt that fell into a sweeping train. Her fingertip veil fell from a tiara of orange blossoms and she carried a cascade bouquet of gardenias and stephanotis centered with an orchid. Her only jewelry was a gold cross set with a diamond, gift of the groom.

As maid of honor Miss Donna Jean Flynn wore a colonial style gown of aqua taffeta with a matching headpiece of flowers and maline and carried an arm bouquet of yellow roses, painted daisies, and snapdragons. As bridesmaids, Mrs. Walter Auser, of Cleveland, and Miss Betty Jane Cray, wore gowns the same style of yellow and lime taffeta with matching headpieces of yellow roses and snapdragons.

Harold Cray served his brother as best man and ushers were Walter Auser and Bernard F. Laux, both of Cleveland.

During the ceremony appropriate music was played.

Afterward a wedding breakfast was served to 25 guests at the Manse near New Wilmington and in the afternoon there was a reception for 200 guests at the New Castle Country club. Refreshments were served buffet style from a table centered with a four-tiered wedding cake, flowers and candles.

Mr. and Mrs. Cray left by car on a wedding trip to California and will be at home after May 25 in an apartment at 227 East Lincoln avenue.

Both Mr. and Mrs. Cray are graduates of New Castle high school. She is affiliated with the Bell Telephone Company as a service representative in the business office and he is associated in the contracting business with his father.

In View Of News Of The World

By J. C. Ostreicher, INS Foreign Director

A strong indication that Soviet Russia is accepting defeat on the issue of the Marshall Plan was seen today in reports that Romania soon will be embraced as a sister republic of the Kremlin.

That development, together with communism's electoral setback in Italy and concessions made to Finland in the final draft of the Russo-Finnish mutual assistance pact, appears to some observers as a Soviet decision to consolidate rather than expand, for the present at least.

The heavy impact of communism's victory in Czechoslovakia still serves to obscure the fact that the Russians have not come out too well in the over-all picture.

Lost Out On Program

They lost out in their apparent intention to drive the United States and Great Britain out of Berlin.

They apparently planned vast May Day disturbances and possibly revolutions at various places in Latin America. Government vigilance and emergency measures reduced them all to naught.

They tried again to discredit the Marshall Plan and American economic moves in Europe by means of demonstrations in Paris, still the pulse of the continent, but their efforts were a failure.

And the day after found Pope Pius, in an appeal for peace in Palestine, able to voice the happy and most encouraging words that have come from the Vatican in months.

The Pontiff said:

"More attention is now being paid to those who are dedicating themselves to reconstruction and the establishment of a new order of prosperity, than to those who still incite hate, rancor and bitter contentions."

The Holy Father warned that the sky is "still beclouded with new menaces." But there was no mistaking his conviction that for the time being at least, the western democratic policies of European uplift and betterment as against "control chaos" have triumphed.

Romania's absorption into the Soviet Union as the 17th Soviet Republic would be in line with a new policy of consolidation.

Situated geographically as she is, Romania must be dependent upon a major power. Before the Second World War, her interests were tied closely to those of

France. But Adolf Hitler was quick to realize that the Franco-Romania alliance had to stand or fall upon the attitude of Russia. And with this sort of knowledge he engineered European affairs to his liking.

Of interest is the fact that Soviet Russia has announced flotation of a loan approximating almost 4 billion dollars. This presumably is for reconstruction and rehabilitation. Economists will soon learn whether the money goes into houses and tractors or airplanes and bullets.

Looking At Life

By Erich Brandeis

"—and everywhere that Mary went the lamb was sure to go."

Little Arthur Dowler, of Springfield, Ill., wasn't a very good pupil. His first-grade marks were very low, and his teacher was afraid he'd never graduate from the first.

She talked to Arthur one day and he told her that he couldn't keep his mind on his studies because he missed "Spareribs," his little brown and white spotted terrier.

When "Spareribs" was just a little pup he fell into a well and Arthur had saved him from drowning.

Ever since, the two had been inseparable and when Arthur had to go to school and leave the dog at home, the boy moped in the classroom and "Spareribs" moped around the house.

So, a conference was held and the rules were relaxed. Arthur was permitted to take "Spareribs" with him to class.

His grades improved immediately and now he is in the fourth grade.

But, strange to say, as much as "Spareribs" likes his master, he firmly refused to go beyond the first grade. He accompanied the boy to school every morning and waits for him when school is through. But he goes into the first-grade class room and stays there. Probably he realizes that first-grade knowledge is good enough for a dog and, furthermore, the teacher reports that "Spareribs" is so well behaved that he is setting a fine example for the kids.

When one of them has to go to the front of the room to recite, "Spareribs" trots along and sits there, encouraging the youngster, until he is finished and then walks back to his desk with him.

But when school is over his duty by the first-graders is done. When the last one has left the room he walks over to the fourth-grade room and takes Arthur home.

In the morning he sees to it that Arthur gets up in time for school, and when he is tardy "Spareribs" accelerates his steps, thus telling the boy to hurry up.

You may shake your head and say, "Likely story!"

Well, I believe it.

Just as I believe that every child should have a dog for a companion and just as I believe that any boy or girl can learn more about loyalty and responsibility from a dog than from a lot of human beings.

It seems rather strange that dogs—which we call "dumb animals"—seem to have such fine character traits by instinct, while human beings must be taught those very same traits—any many never learn them.

I remember years ago I had a big Airedale. Every evening he came to the station and waited for my train to come in. Several times I was tempted to stay in town for a good time.

But I didn't have the heart to disappoint my dog.

And so I stayed sober and caught my train.

Washington Calling

(By Marquis Childs)

Gen. Bradley Inherits Problems

WASHINGTON, May 5.—The script of the Eisenhower drama beats anything that Hollywood could possibly dream up. We come now to the place that says "transition from military to civilian life."

Here is the solid red brick house on the edge of the parade ground at Fort Myer, Va. The view is off toward Washington in the misted distance. Here the Eisenhowers have lived during and since his tour of duty as chief of staff.

Outside, a line of soldiers stands in military formation. A band is playing. The general comes out briskly, with his wife at his side. They step into a waiting car. Slowly the car drives past the line of soldiers as the general stands at salute.

End and Beginning

This is the end and the beginning. Few lives have been so crowded, so full of stress and strain and glory. Yet there is the suggestion that the new phase now beginning may unfold even greater drama.

The latest transition in Eisenhower's life takes place against a background of change and uncertainty on the world stage. That gives to it a symbolic importance above and beyond the human interest.

At the moment that he steps into a civilian role as president of Columbia university, the armed forces are in the middle of a crisis. Between the political pull and hauling of an election year and the lack of any real unification of the armed services, confusion

One Man's Opinion

By Walter Kiernan

There is news of a Danish sailor who lived 111 years as a bachelor. Then he married and was dead at 140.

Let this be a lesson to all single men.

Actually they don't know whether he lived that long because he was a Dane, a sailor or a bachelor . . . And until we find out we will continue to issue marriage licenses to reckless young men.

All I know is that 29 years of married life and he was snapped into his shroud. Just when he was going good.

There's no telling how long he might have gone on had he stalled off the bridal march for another 50 or 60 years.

But this should settle the question of whether or not a man can live alone and like it. For the first 111 years the answers is "yes."

They Say

WASHINGTON—William Green, president of the AFL: "The 80th Congress is a colossal failure and a real housecleaning of reactionaries is coming now. . . . The people of this country are getting angry of being robbed right and left by profiteers."

NEW YORK—General Dwight D. Eisenhower: "No great nation, including Russia, is willing at the moment to provoke deliberately a global war. . . . But I feel a stupid act might bring it about or a deadlock where neither side feels it can retreat."

WASHINGTON—Earle K. Long, gov.-elect of Louisiana: "President Truman seems to take it as a foregone conclusion that he will be elected to another four years as chief executive."

BIRMINGHAM—Sen. Glenn Taylor (D) Idaho: "My arrest and manhandling in Birmingham is a blatant violation of my constitutional rights. . . . The local segregation ordinance is unconstitutional and I am prepared to carry this case to the U. S. Supreme Court."

The Case Of The Arab Office

(By Holmes Alexander)

WASHINGTON, D. C., May 5.—Call this a detective story if you like. It poses a mystery and seeks out the clue. Yesterday I walked into the swank headquarters of a propaganda outfit. It had everything that is needed in Washington to make a propaganda outfit successful. It had a six-room layout in a fine hotel, plenty of money to spend, a pretty receptionist at the desk, a well-informed staff that was there to pump out take-it-or-leave-it information on a highly newsworthy subject.

Not Doing Much

Yet the outfit was not doing business enough to justify its existence. Since Christmas it has cut its Washington staff in half and closed its New York sub-station. It has almost stopped printing "handouts" in the form of news stories. It has tried and failed to get sufficient radio time to make transcribed programs worth while. Its staff members, who are willing to speak for nothing or for bare expenses, can't get enough speaking engagements to keep busy. From what I saw and heard the outfit is about to fold its tents like the Arabs.

Like the Arabs, because that's what the outfit happens to be. It is the Arab Office, located in Suite 400-E of the Wardman Park Hotel. The office is financially supported by the seven member-nations of the Arab League. It spends upwards of \$100,000 a year to win friends and influence people for the Arab cause. It is in a legitimate business and is, quite properly, registered with the Department of Justice as an alien agency.

There Hangs The Mystery

So there hangs the mystery. Why isn't there work enough to keep the Arab propagandists in business against their legitimate and busy rivals? Admittedly, their handouts are "slanted," but so are their rivals' handouts. Obviously, events are moving too fast in Palestine to make the Arab Office an up-to-the-minute news source. But it is—since any good reporter knows how to "unscent" a story and take the needed facts—a good place to go for background and research material.

Yet few reporters go there. "In a year," said the Arab Office spokesman injuredly, "you could count them on the fingers of your hands. I think I know the reason why. It is a subtle, somewhat unattractive reason. The thing that keeps the telephone ringing and the mail-slot snapping in Suite 400-E is anti-Semitism. Phone calls and letters pour into the Arab Office from race-minded screwballs and hate-groups."

Stinging Irony Of Tale

Do not suppose from this that the Arab Office is a race-hate headquarters. We are now coming to the stinging irony of this strange tale. The one way that Arab propagandists could successfully operate in America is by steering away from racial emotionalism. That is what they are trying to do. The office plugs this line: "The Arabs are not anti-Semitic for the excellent reason that they too are Semites." The office tries hard to present the Palestine problem for what it is—a political problem, nothing else. But the screwballs and the racetrackers won't stay out of their hair, their mail box and off their telephones. The fanatics have fouled the nest.

Carries A Moral

Not all detective stories carry a moral, but this one does. The case of the Arab Office is a nutshell sample of the whole Palestine issue. Here is a world problem that has been emotionalized out of recognition by the extremists of both camps. It is downright risky these days even to discuss Palestine, so certain you are to be misunderstood. I have a letter in which one reader calls me anti-Jewish because I once mentioned Communism and the Holy Land in the same sentence. I have another letter which charges me with being in Zionist pay because "you spell gentle with a little G." I laughed at both these letters, but maybe I was wrong. And wrong too in calling this piece a mystery story. When you write about racial fanatics and hate-people, you are dealing with the raw materials of tragedy.

Jobs Upon A Time

At six years of age Lillian Gish, actress, made her debut on the stage in "In Convict Stripes," at Rising Sun, O. Followed a year dancing in Sarah Bernhardt's production in New York, and in 1913, Lillian appeared with Mary Pickford in "A Good Little Devil," beginning a career on the silent screen in such classics as "The Birth of a Nation" and "Broken Blossoms."

Violinist Fritz Kreisler read music before he could read words. His father, an eminent Austrian physician, started him toward a musical career, and at four Fritz made himself a violin out of a cigar box. He gave his first concert at seven and was accepted by the Vienna conservatory in spite of his extreme youth. When 10 he was sent to the Paris conservatory where he competed with musicians of twice his age, winning the premier grand prix. He made his first appearance in America in 1888, when he was 13.

The World and the Mud Puddles

TRUCK DRIVERS

The affairs of the Teamster's Union have occupied considerable space in the national newspapers, but mostly critical have been the opinions expressed in the news papers regarding their activities.

Has the reader of this observed how the drivers of the great freight trucks conduct themselves—how they drive and what attention they give to other motorists on the highways? The United States has, by far, the finest highways and the most efficient motor vehicles traveling on those highways of any country in the world, the size running from the great old trucks often rolling on as many as sixty-four tires, each weighing nearly one hundred pounds, besides the weight of the steel in the bodies of these trucks.

Were you ever unfortunate enough to be out in a driving rain or snow or hail and meet up with one of these big fellows? The lamps on these trucks have the power of locomotive headlights—very, very brilliant, but as you approach one of these trucks that great light is dimmed. High in the driver's seat of this vehicle you will see a very efficient man who handles this great vehicle as he would a toy, as he passed you in the rush and roar of the storm, perfectly safely with lots of room. You may have thought little of his skill and you probably had stopped your car to play safe and you may have been a very good driver yourself, but you were compelled to admire the courtesy and great driving ability of that truckman.

Now the drivers employed by the International Teamsters Union have to pass rigid examinations as to their drivers' qualifications and their safety contests on the West Coast. In the year 1947, eleven drivers for the Mueller Truck Company completed a year of driving on the streets and highways of Southern California without a single accident.

Here is an example for private motorists well worth emulating. If a large, heavy truck can be manipulated for twelve months

"Aha!" cried the villain, "I've got you at last!"

And now to the track I shall tie you fast.

By ankle and wrist!"

Oh, memory of boyhood now far in the past!

I sat in the gallery, staring aghast; That villain I hissed.

As a symbol of evil his moustache was black.

The train was approaching full speed on the track.

When the hero appeared, With courage the villain he rushed to attack.

Knocked him out with a blow and pulled the girl right back, And I stood up and cheered.

Last week, "Babes in Toyland" I took him to see.

And, old Uncle Barnaby, mean as can be,

With a miserly fist, Roused that grandson of mine, and I chuckled when he

Reminded the boy that I once used to be

As he stood up and hissed.

CONDOLENCE

"How soon after hearing of a death should a letter of condolence be written and under what circumstances should it be written? That is, even though a call has been made on the bereaved, must a letter be written? Is it necessary to answer letters of condolence and return calls of condolence?"

Answer: Those who do not know the family well enough to attend the funeral or services should within a week or so after the funeral make a call of condolence. When this is not possible, a letter should be written. Either should be done as an act of friendship, but when a call has been made a letter should not be sent.

All letters, notes and telegrams of sympathy, as well as flowers, must be acknowledged by some member of the family. Such acknowledgments should be in the form of notes—not printed cards. Even a hasty message, written on a visiting card, will suffice.

Thank you for your kind sympathy—when there is a great number to be sent. A note, however, is preferable to close friends. At the death of a noted person, when messages of condolence and flowers run into great numbers, it is impossible to send personal notes. The family then sends to acquaintances and strangers engraved cards of acknowledgment. Relatives and friends must, however, be thanked by personal note.

Calls of condolence need not be returned.

Question: Which is correct when writing a personal letter to a married woman... Mrs. Mary Jones or Mrs. Harry Jones?

Answer: Mrs. Harry Jones, always, whether her husband is living or dead.

Present your problems to Miss Markel who will send personal replies to questions from readers inclosing stamped, addressed envelopes.

THE WORLD AND THE MUD PUDDLES

(Continued from Page Four)

without a traffic accident of any sort, it ought to be much easier to manipulate a passenger automobile just as safety.

Time was, incidentally, when truck drivers were the bane of traffic to motorists because of their apparent indifference to the courtesies of the road. In later years, be it said to their credit, the truck operators have become recognized as models of consideration and careful driving, not only observing all the courtesies, but frequently proving helpful to motorists in trouble.

Impressed With Courtesies

The writer has driven an automobile across the United States a good many times and has been impressed with the courtesies of the truck drivers. A truck driver going the same way as you up a hill and the hill is long, is compelled to travel slowly because of the truck's great weight, but the driver from his high seat commands a view of the highway a great deal further than you can and he can give very excellent judgment as to whether it is safe for you to pass him or not. You will find that he will give this advice on all occasions and it will be good advice. If you have had an accident and are broken down on the side of a comparatively deserted road he will stop and offer his services for what they are worth and they are generally very valuable.

So the next time you meet up with one of these big trucks carrying valuable freight, just observe the method of the driver. The chances are that he is a friendly soul and will salute you with a happy smile, and you will be wise to follow any direction that he may give you.

ment, as he said goodbye to his former chief, when Bradley felt a twinge of envy. In recent weeks he has had time to realize the size of his burden.

Yet General Bradley is a strong and resolute soldier. His is a great opportunity as well as a great burden. He is entirely different in temperament from his predecessor. Quiet, persistent, patient, he has none of Ike's flair for the dramatic.

Without Eisenhower in the national scene, Washington will seem a little strange. Actually, of course, he has merely changed settings. And the next page of the script may see the college president in a role as dramatic as any he has yet assumed. Philadelphia and the political conventions are just over the horizon.

Will Not Impose "Gag" on Reporters

Speaker Martin of Congress, Says
Proposed Bill Will Be
Amended

WASHINGTON, May 5.—(INS)—Speaker Martin (R) Mass., said today that the resolution compelling government officials to give confidential information to congressional committees will be amended to prevent imposition of a "gag" on news reporters.

Martin said that the measure will be changed on the House floor so that penalties provided will not apply to newsmen.

The bill is designed to force President Truman to give the House Un-American Activities Committee a secret FBI letter concerning Atomic Scientist Edward U. Condon.

As drafted by Rep. Hoffman (R) Mich., the measure would subject to a year's imprisonment and a \$1,000 fine anyone who divulged confidential security information given to congressional committees.

Hoffman contended the punishment could be applied to reporters who printed such information as well as to congressmen and committee employees who might give them the data.

Martin endorsed an amendment to be offered by Rep. Brown (R) Ohio to exempt reporters from the penalties of the legislation. The speaker commented:

"The resolution will be fixed up during the debate on the floor. No one need worry that this Congress will try to abridge the freedom of the press."

Unique Celebration Observed at
Grove City Home When Cam-
eron Clan Gets Together

GROVE CITY, May 5.—The home of Mrs. Lillian Plizer, 215 North Broad street, was the scene of a unique celebration on May 1, when members of the Cameron clan, 50 in number, met to celebrate the fiftieth birthday of Professor T. W. Cameron of Mt. Union, Pa. Professor Cameron is the youngest son in a family of 11 children, six girls and five boys.

The celebrations are unique in the fact that each member has been entertained in a similar manner on attaining his fiftieth birthday. It is seldom that 11 children in one family live with each seeing the other celebrate his fiftieth birthday.

Only two absentees marred the good time enjoyed by the group and this was caused by illness. A brother, D. L. Cameron of Princeton, and the oldest sister, Mrs. C. C. Cunningham of Riverside, Calif., are confined to their homes with illness.

At the conclusion of the happy occasion, delicious refreshments were served by the hostess. Relatives were present from North Braddock, Sewickley, Pittsburgh, Butler, New Castle, Mt. Jackson, Harlansburg, Grant City, Mt. Hermon, Corry, Warren, O., and Chicago.

Golden Jubilee For Flag Day

June 14 Will Be Fiftieth Anniversary of Celebration of Flag Day

Flag Day will mark its golden jubilee this year. June 14 will be the fiftieth anniversary of the celebration of Flag Day and appropriate services are being planned in various cities.

Flag Day, June 14, is the anniversary of the adoption by the Continental Congress June 14, 1777, of the Stars and Stripes as the emblem of the United States, and with that date began the history of our flag as a symbol of our nationality. The American Flag Day Association for 50 years has led the national observance of "Flag Day" as a patriotic, fraternal, civic, military, social, service, educational, religious and other organizations cooperating and participating.

In this golden jubilee year the association requests all to "observe Flag Week June 5 to 14, but especially June 14, that decorations be made, the American flag displayed, that in schools, colleges and universities there be patriotic exercises, that societies, clubs and others have suitable programs at their regular meeting places during that period, that religious bodies which meet Saturday, June 5 to 12, or Sunday 6 to 13, have patriotic religious sermons for we are a God fearing republic."

William T. Kerr of Yeonon, Pa., is the national president of the American Flag Day Association. In 1898 he formed the association and has headed it ever since.

PROFESSIONAL-LOOKING CLOTHES EASY TO MAKE

Making clothes that have a professional look is easy and simple. The trick is in knowing simplified sewing methods.

Selection of your pattern is the important first in simplifying sewing. Compare your measurements with measurements of the pattern you want, then buy your correct size.

Before you lay your pattern on the material, place the selvages together and straighten the ends of the fabric. Pull threads or tear the fabric across each end. All lengthwise and crosswise threads must be even. These threads form the grain line. Place the pattern on the material, observing all symbols on the pattern. Keep the perforations marking the straight of the material on the grain line.

A quick accurate method of marking is to use dressmaker's carbon paper and a tracing wheel. Place the carbon on both sides of the material with the carbon side toward the wrong sides of the fabric. With a ruler and tracing wheel, mark both sides of the fabric at the same time. Use a machine basting stitch to mark lines that need to be shown on the right side of the material, such as the

center and front, center back, and buttonhole lines.

Stay lining a dress is a new idea to many homemakers. It will help keep the grain line perfect. This machine stitching with matching thread is used at the neckline, armseye, waistline and shoulder before the pieces of the garment are joined together. It prevents pulling and sagging at the seams. Stay line about 1/4 inch outside the marked seam lines. Do it on each piece of the garment before any other construction work is done. Always sew with the grain, not against it.

Baste the pieces of your garment together on the sewing machine. Use the longest stitch on the machine. This helps make quick, even stitching of seams later.

Use the cloth guide that is standard equipment on all machines as a seam gauge. This eliminates error in width of seams and helps to assure straight even seams.

Homemakers may get more details on methods of speeding up sewing and making professional-looking clothes by writing to the Agricultural Extension Association, 206 Post Office building, New Castle.

Almond Growers

Seek Continuation Of Tariff Barriers

WASHINGTON, May 5.—(INS)—Five thousand California almond growers appealed to President Truman to continue tariff protection to their 250 million dollar industry.

In a petition prepared for submission to the president, the group protested trade agreements calling for a 50 percent cut in walnut tariffs and a further reduction in cashew and brazil nut rates. The growers said:

"Since the various tree nuts are largely interchangeable in use, the entire tree nut industry will suffer another serious blow should you proclaim these new rates effective."

Move For Loan Of Half Billion To Latin America

WASHINGTON, May 5.—(INS)—The senate banking committee Tuesday recommended passage of legislation to make 500 million dollars in United States loans available for Latin American countries.

By a vote of 7 to 0, the committee approved a house passed bill expanding the loan authority of the export-import bank by 500 million dollars, unofficially earmarked for loans to Latin America.

The new legislation would bring the total loan authority of the export-import bank to four billion dollars.

The bill does not specify that the half billion is to be available exclusively for Latin American

countries, but officials of the bank testified that it would be used for that purpose.

Senate Vote On Margarine Tax Is Set For Today

WASHINGTON, May 5.—(INS)—The house-passed bill repealing federal taxes on margarine faces a test in the senate today.

Senators from butter-producing states are confident they have the votes to send the measure to the agriculture committee for hearings.

Cotton-state senators, interested because cottonseed oil is used in margarine, are fighting to have the bill sent to the finance committee, which handles tax legislation.

The southern senators fear that the agriculture group will attach amendments which might "discriminate" against margarine as much as they consider that the special tax does. They are afraid also that the agriculture committee might sidetrack the whole bill.

By agreement, the vote was set for 2 p. m. EDT, giving each side one hour of debate.

The first U. S. building and loan association was organized in Philadelphia in 1835.

Health Talks

By DR. W. A. WOMER
City Health Superintendent

LEUKEMIA
Five times as many people die from leukemia as from infantile paralysis.

It does not cause much excitement. It does not get much publicity.

Doctors sometimes call it cancer of the blood.

They have been studying about it for many years. It attacks both the young and the old.

It causes a lot of suffering and many deaths.

All through the years doctors make a steady persistent investigation of causes, cure and prevention of disease.

There is no fanfare. There is very little publicity. The work goes on day and night, winter and summer.

Typhoid disappears from our cities. Diphtheria loses its terrors. Smallpox almost fades away. Cholera Infantum is never heard of.

The steady warfare against disease goes on.

Court House Shaffer Resigns, To Scout For Sox

Deputy Sheriff Fred Shaffer
To Be Western Scout For
Chicago Americans

OTHER EVENTS IN COURT HOUSE

Deputy Sheriff Fred Shaffer has resigned his position and on Saturday will leave for Chicago, Ill., where he will become a scout for the White Sox team. Mr. Shaffer has been assigned the Nebraska-Iowa district for the Sox.

When Sheriff Frank L. Coen took office Mr. Shaffer was made a deputy sheriff. He is a pitcher, and for a time pitched for the Louisville, Ky., team.

During the war he served with Bill Rigney, a former big league star and a son-in-law of Charles Comiskey, owner of the Sox. Realizing Mr. Shaffer's baseball ability and knowledge Mr. Rigney suggested that if Shaffer cared to come with the Sox, a place would be found for him. A few days ago Mr. Rigney called Shaffer and asked him if he would take the Nebraska-Iowa territory as a scout and Shaffer accepted.

DEWEY LEADING

Despite the fact there was no place upon the Republican ballot for write-ins for president, a number of local citizens made their own place and wrote in names. In the official recount of the ballots thus far there have been two votes for Thomas E. Dewey and one for Harold E. Stassen.

Around Hollywood

By FRANK NEILL
(International News Service Staff Correspondent)

HOLLYWOOD, May 5.—(INS)—

On the celluloid cuff:

Governor Jimmie Davis of Louisiana will open a flossy Hollywood night club where he will be his own guest singing star. . . . Bing Crosby is building a house next to his favorite golf course, Pebble Beach, near Del Monte, Cal., to save commuting from Movietown. . . . Nelson Eddy came home for a sixty day concert tour that not only broke crowd records but made the blond singer more dough than he's earned for years. . . . 20th Century-Fox is going to film Oscar Wilde's "Importance of Being Earnest" in London this summer. . . .

Seventeen Tarzans

Jim Pierce, one of the early day Tarzans of the movies, is back at work displaying his brawn benignly on the business end of a stretching rack for scenes in "The Adventures of Don Juna". There have been exactly 17 screen Tarzans, the newest being Lex Barker, who balked at the idea of not being able to get any more haircuts. Johnny Weissmuller is through as Tarzan but he is still no buddy of

the barber, retaining his eight-

inch tresses. . . . Andy Devine, whose sheer bulk prohibits him from riding his Palomino automobile; his special pale yellow convertible is the flashiest jalopy in movietown. . . . the specially-built bicycle Andy rides around Republic studios bears a sign: "Toon Too Devine". . . . Gregory Peck, recovering from a busted gam, is sporting a bushy beard for his role as an outlaw in "Yellow Sky". . . .

Good Ideas

Bill Lawrence, radio producer and movie dialogue director, has popped an idea that will knock a week off film shooting schedules, improve acting and maybe give the cash customers more for their money. For Republic's "The Far Outpost," Lawrence will rehearse dialogue of all actors for three days before a camera grinds. The rehearsal then will be played back to the cast, to check mistakes and intonations. Other studios are expected to adopt the process that will save movie-makers millions of bucks a year.

Maureen As Shopgirl

Maureen O'Hara has turned shopgirl. She opened a dress shop at Tarzana, in San Fernando Valley, and three days a week hails wares across the counter. Her mother, who owns a store in Dublin, has been writing letters of advice. Maureen not only does the actual selling but also the whole-sale buying of stock. She works harder to peddle a hunk of cos-

tume jewelry than she did in 37 takes of a scene with Clifton Webb in "Sitting Pretty." The actress plans to open other branch shops of Maureen O'Hara, Inc., throughout Southern California and then move east.

Roasting a Turkey? Shows you why Boscul is Richer Coffee!

New 'custom-roasting'
gives new, richer Boscul
more flavor per cup,
more cups per pound

As every housewife knows,
a large turkey must be
roasted longer than a small
one, to bring it to the
peak of flavor. This simple fact
is the secret of new, richer
Boscul Coffee's finer flavor!

1. Because all coffee beans
are not the same
size . . .

Coffee is blended from beans of vari-
ous sizes. Yet all other leading brands
roast large and small beans together
... at the same time and temperature.
Result: small beans over-roasted,
large beans underdone.

2. Boscul custom-roasts
each size bean
separately!

Of all leading coffees, only Boscul
roasts each size of bean separately,
before blending. Only Boscul takes
this extra step to "custom-roast" the
fine coffees in its blend to achieve
maximum flavor and richness.

3. Boscul is 'roast-controlled'
by the electric eye!

As a further flavor safeguard, Boscul
uses the Electric Eye to eliminate
guesswork and assure that each size
bean is roasted to the peak of flavor
every time. Try "custom-roasted"
Boscul Coffee today!

Butler Named Ambassador To Cuban Post

By JAMES LEE
(U. S. Staff Correspondent)

WASHINGTON, May 5.—President Truman late Tuesday named Robert Butler, present United States ambassador to Australia, as ambassador to Cuba replacing R. Henry Norweb, veteran career diplomat.

Authoritative sources said this was the first in a series of changes in top diplomatic posts planned by the administration as a means of rewarding political supporters of the president with choice appointments.

It was pointed out that the administration is eager to recognize the political support of men who have been assigned to some of the less desirable diplomatic jobs around the world.

Other Reports Persist
Norweb's resignation as ambassador to Cuba was announced by the White House yesterday.

It followed persistent reports that Jefferson Caffery, United States ambassador to France and also a career diplomat, soon will be replaced.

The White House, in its first announcement that Norweb was to be recalled from Cuba, said he was destined for a new and important assignment.

This announcement later was amended to state that he was being recalled for consultation and that no specific new mission was in sight for him.

One of Best Posts
Havana is regarded as one of the best diplomatic assignments available because of its comforts and its proximity to the United States.

James C. Dunn, now ambassador to Italy, has been mentioned as a successor to Caffery in Paris, although there have been other reports that Caffery would be succeeded by Allan Dulles, brother of GOP Foreign Policy Adviser John Foster Dulles.

Norweb has been ambassador to Cuba since 1945. Previously, he served in Tokyo, The Hague, Santiago, Mexico City, the Dominican Republic, Peru, and Portugal.

VISIT SHARON LODGE
Messrs. F. M. Miles and D. E. Orris were guests at the Sharon K. P. lodge this past week when they entertained Hon. Willard M. Kent, supreme chancellor of New York.

COMPANY SALESMEN, like James Kooker, carefully trained to be ready with counsel, advice and selling aids that help Esso Dealers, like Clyde Porter and James Weyman, run their own successful, independent business.

LABORATORY WORKERS, like John Vukmanic, who make the many scientific tests that assure quality petroleum products for your use.

REFINERY PEOPLE, like John Chergi, whose skillful operation of complex modern equipment maintains the output of high quality products.

What's behind the "Esso" Sign?...

THOUSANDS OF MOTORISTS know the red-white-and-blue ESSO Oval as "The Sign of Happy Motoring." It is their roadside mark of quality in gasoline and motor oil, of fine Atlas Tires and Batteries and other motoring supplies.

But perhaps the most outstanding thing behind the Esso Sign is not just the great laboratories and refineries.

Instead... the greatest and most unusual thing behind that familiar sign is probably just the people who work at Esso Standard Oil of Pennsylvania and affiliated companies — and the kind of jobs they have!

Workers who have not had an important strike or labor disturbance in over 30 years! ... Workers who today average over 14 years apiece of service! ...

Workers with regular, paid vaca-

tions each year. Workers with good wage scales and steady work. Workers with retirement income assured for life. Workers with opportunities for advancement, with company training to help them get it! ...

These and other unusual employee benefits result from the company policy that was set up many years ago. It is a policy that believes good jobs draw and hold good workers.

And it's a policy that gets worthwhile results for all concerned—including, right now, the greatest production and delivery of petroleum products in our history. The better you live, the more oil you need, and today we and all the oil industry are straining every facility to meet your record needs for gasoline and oil in cars and homes, planes and trains, factories and ships, and on the farm.

Housecleaning Chores Hold Danger—Red Cross

This year accidents in the American home may kill 32,000 persons and injure 4,500,000 more. Most of these persons will be children and old folks. These figures are based on average experience of the past several years, states Mrs. Theodore Castelle, acting chairman for the prevention of home accidents at the local Red Cross chapter.

Home accidents cause more deaths than any other type of accident. Falls are the greatest cause of serious home accidents, since about half of all fatalities in the home result from this particular misfortune.

Timely Hints

Here are some timely hints on how to reduce injury and death during that period of spring when housecleaning is prevalent in most of our homes.

1. Keep stairs clear of toys and other articles.
2. Have stair wells and basement steps well lighted.
3. Avoid carrying unwieldy loads on stairways.
4. Keep footstools out of line of traffic.

5. Be sure your stepladder is strong and in good condition before attempting to use it.

6. Wipe up spilled substances immediately.

Burns or scalds are the second greatest cause of a accidental death to children. Some safeguards against this hazard are:

1. Keep hot utensils out of reach of small children.
2. Turn handles of pans and pots and pans away from the front of the stove.
3. Keep matches inaccessible to children.
4. Dispose of rubbish promptly.
5. Be sure cleaning fluids are non-inflammable and if it is not, be cautious when using it.
6. Avoid smoking in bed.

Wounds and cuts are probably the most frequent cause of minor accidents in the home. The following suggestions are made by the Red Cross:

1. Keep pins and sharp tools away from children.
2. Keep sharp knives in a rack.
3. Dispose of broken glass promptly.
4. Keep rakes and digging tools on a rack.

In conclusion, the Red Cross warns us all to use common sense—think before you act. Most accidents can be prevented by being alert and planning your work with the thought in mind that mishaps happen suddenly, usually caused by careless oversight.

CHICAGO, May 5.—(INS)—Do Negro baseball teams resent losing their stars—the Jackie Robinsons, Larry Dobs, and the like—to organized ball?

Abe Saperstein, the one man who ought to know if anybody does, says no, there's no resentment like that involved.

"After all," Saperstein said yesterday, "bring a boy up to organized ball that way and you're helping him better himself. No right-thinking person is going to resent that."

Bill Veeck, president of the Cleveland Indians, yesterday named Saperstein more or less of a scout in the Cleveland cause; a man who'll build an organization to fit.

BILL VEECK
Looking For Talent

ter top colored players into organized baseball, and eventually, into the Tribe camp.

Saperstein is former owner of two Negro baseball teams, co-organizer of the annual colored East-West star game, and, of course, major domo of basketball's most renowned organization, the Harlem Globetrotters.

"Opens The Way"
Said Veeck, in announcing his link with Saperstein.

"The arrival of Jackie Robinson of Brooklyn," and our own Larry Doby has opened the way for Negro boys who felt they had no place to go.

"The Indians hope, with the assistance of Saperstein, to find other Negro boys with exceptional baseball talent to join Doby on the Tribe roster."

Saperstein himself thinks the job ahead will be a long one and a tough one.

"But hear this," he says, employing the navy idiom which is his favorite phrase, "hear that Cleveland with Doby, is breaking all records for attendance for this season, and hear this, much of that draw is the colored population of Cleveland and its neighboring communities."

"That can happen in the Minor Leagues too, all the way through organized ball, and there's no reason why it shouldn't."

Saperstein and Veeck are old pals from way back. They promoted basketball together in Milwaukee when Veeck was in charge of the American Association ball club there, and their current association, which, incidentally, was Veeck's idea, originated in some correspondence they had just before Saperstein took the Globe Trotters to Hawaii a month or so ago.

"It may take a year," Saperstein says, "it may take two years or more, but this is going to work out fine."

Golden-Baker Feature Amateur Fight Card Little Divides Bottom Teams From Loop Leaders

All-Star Game Here To Climax Coaches' Clinic

Having trained for two weeks Bob Golden of Akron and Bob Baker of Pittsburgh, District Golden Glove heavyweight champions, will meet in the main bout of an eight-battle show in The Arena tonight.

Baker fought Rizeri Ronzi here a year ago, but since then he has improved greatly, according to reports. It will be Golden's first appearance in a local ring.

The Pittsburgher fought his way into the national amateur finals in New York, but was outpointed, thus losing his attempt to occupy the top chair in amateur boxing.

Golden's record shows that he punched his way through all of Akron's heavyweights and fought his way to the finals in the Plain-Dealer's tournament in Cleveland, losing out in the finals.

Meet In Semi-Final
The semi-final will bring together Howard Thornton of Pittsburgh and Frank Lavarro of Akron. They are light-heavyweights.

Two Lawrence county boxers will meet each other in one of the prelims. They are Ronnie Straw of Ellwood City and Joe Vitale of New Castle. They weigh 135.

Chiefs And Grays Game Called Off

General Manager Smith Calls Off Game Due To Wet Grounds, Open With Butler Friday

General Manager George "Pappy" Smith, of the New Castle Chiefs of the Mid-Atlantic league, at 10 o'clock this morning called off the New Castle-Homestead Grays game scheduled for tonight at P. J. Flaherty Field.

The field was very wet following an all-night rain and could not be dried out in time for the game to night with little prospect of any sunshine today.

"We hated to have to call off the game, as we need the workout, to put us in good shape for Friday night's opener with the Butler Yankees, but the field on an inspection at 10 o'clock was pretty soggy," Smith stated.

Opening Ceremonies

The ceremonies for the Mid-Atlantic league opening here Friday night will be brief, and will start at 8:15 o'clock. A detachment of Marines will lead the two teams to the flagpole in left field for the flag raising, after which Mayor John Haven will toss the first ball to "Bud" Rueler, superintendent of the Brass Shop at the Johnson Bronze company and the game will be "on". Elmer Daily, president of the league will make a short speech prior to the game.

Indications point to a crowd of around 2,000 and over for the league inaugural here. Extra bleachers are being installed at the field, to seat 1,000 fans. A crowd of 1,500 saw the Grays here last Friday.

Cleveland Drops Another, A's Victors, 8-6; Red Sox, Yanks Triumph; St. Louis Creeps Nearer Pirates, Clip Brooklyn, 5-4 In Night Tussle.

By LOU GARAVENTE

NEW YORK, May 5.—(INS)—The major league standings—prelim today that the pre-season "dope" was right—the 1948 pennant races are going to be very close.

Of course, the season is only two weeks old but there is no disputing the fact that in both the American and National leagues the difference between first and eighth places is about three-and-a-half games.

In the American league, the Cleveland Indians are on top. The Chicago White Sox are in last place, three-and-a-half games off the pace. The Pittsburgh Pirates hold the top spot in the National league. The Chicago Cubs are in last, the same distance away as the White Sox.

It is an unprecedented situation even for the National League, where "tight" races are traditional. There have been occasions where the top four clubs in each league battled it out, but invariably there was one club which found the early going rough and sloughed off into a losing streak. Not the 1948 races. At least, not yet.

No team has lost consistently without regaining lost ground quickly. Conversely, no team has won consistently without suddenly fading.

Case In Point
The Cleveland Indians are a case in point. The Indians took the play away from the New York Yankees and the Boston Red Sox by rocketing to six straight victories before the Detroit Tigers dumped them. But since the Tiger loss the Indians have yet to win.

The Philadelphia Athletics had to go ten innings, but in that frame shortstop Eddie Joost, hammered a two-run homer into the left field seats to dump Cleveland 8 to 6.

Lou Brissie, Philadelphia southpaw was relieved in the eighth.

Charlie Wensloff, Yankee cast-off, was the victim of Joost's circuit clout.

Eddie Robinson hit a home run for Cleveland in the second, and Sam Chapman banged a three-run round-tripper in the third for the Athletics.

The scheduled night game between the Chicago White Sox and the Washington Senators was called off at the end of five innings with the score tied at 3 to 3.

Cards Edge Closer
In the National League, there was only one night game played. The St. Louis Cardinals edged a half-game nearer the Pirates and New York Giants by coming from behind to defeat the Brooklyn Dodgers 5 to 4.

The Brooks got off to a 2 to 0 lead in the first inning against George Munger. However, Ralph Branca weakened in the fifth and was found for two singles, which, with a wild throw by Spider Jorgensen, resulted in three runs.

Stan Musial hit his third home

run in the sixth inning and Enos Slaughter came out of his hitting slump to notch what proved to be the winning run, a towering home run drive in the eighth inning.

The Boston Braves-Pittsburgh Pirates night game was rained out at the end of three innings with the Pirates leading 3 to 0. The Philadelphia Phillies-Chicago Cubs afternoon contest was postponed because of rain.

The New York Giants and Cincinnati Reds were not scheduled.

Must Submit Player Contracts

Managers of City Baseball league clubs must submit contracts for all players at the 8:30 p. m. Thursday meeting in Carm DeLeon's place. A player who fails to sign a contract will be ineligible, according to Walter Hannon, secretary.

TRIGO WINS DECISION

LOS ANGELES, May 3.—(INS)—Mario Trigo, 132½, of Monterrey, Mexico, made it two out of three over Bobby Jackson, 134, of Azusa, Cal., by belting out a unanimous 10-round decision last night at Olympic auditorium in Los Angeles.

Four round preliminary, Pepin Golzales, 124, beat Ozzie Bigas, 119, Youngstown, O.

Only once in 23 years has Bill Jeffrey failed to place at least one Penn State player on the soccer All-America.
